We serve an award winning "Fair trade" blend no.2 coffee from PNG, South America and Africa as well as our Bondi Chai, Australia's own Gold Medal winning chai tea latte.

All our tea products are gourmet loose leaf tea. Here are some of the descriptions of them all!

Darjeeling – A fine tea from “Darjeeling” India, Having fruity & pleasant flavour reminiscent of high grown mountain tea.

English Breakfast – English Breakfast teas are generally full-bodied, robust and rich, designed to go well with milk and sugar. Black teas included in the blend can include Assam, Ceylon, Kenyan and Keemun teas. Tradition holds that the blend was first sold in Edinburgh simply as “Breakfast Tea” in the 19th century, and that Queen Victoria helped to popularize it. When it was brought down to London, merchants altered the name to “English Breakfast” and it has stuck ever since.

Earl Grey – The smoky and fragrant taste of Earl Grey is a unique experience that many people cannot get enough of. Described as a spicy citrus flavour, Earl Grey is a hard to describe taste that is unforgettable once tasted.

Desserts

Home-made Tiramisu	\$12.0
(Cappuccino Ice cream, strawberry)

Chamomile – Chamomile makes a pleasant aromatic tea with a fruity flavor, enhanced by sugar or honey. It is often sipped for relief of health problems ranging from toothache to nervousness.

Rooibos – Rooibos is not a true tea, but a herb. The brew made from the dried Rooibos leaves is therefore a herbal infusion rather than a tea, but is widely known as Rooibos tea. Rooibos has a distinctive colour, flavour and aroma, which differentiates it from most other teas. The flavour can be described as slightly sweet and fruity.
