

OUR WINE LIST

PHILOSOPHY

The selection of wines on the following pages has been carefully selected with the same pride and passion that we take with all that we do here at Moo Moo The Wine Bar + Grill. We have selected wines that highlight the features and expressions of the regions selected. With older and rarer wines we utilised a network of trusted specialists to ensure the quality of each bottle presented to you.

We endorse a policy of continuing education to help our staff achieve a more thorough understanding in order to provide you with an exceptional experience.

Enjoying a glass of wine can be a great adventure. Take the opportunity to try something new that will hopefully excite and delight.

We understand the list is comprehensive but do encourage you to engage with our staff and please do not be afraid to ask any questions.

Thank you for joining us today at Moo Moo.

Sit back, relax and enjoy.

CHAMPAGNE

Undoubtedly the best region in the world for the production of sparkling wine. Champagne is approximately 160 kilometres east of Paris in the country's north east and is centred around the towns of Reims and Epernay where most of the Champagne houses are based. Being one of the northernmost regions in the wine growing world its cooler climate produces high levels of acid which are perfectly suited to the production of sparkling wine but the most significant contribution to the wines of Champagne is made by the soils. A major factor adding to the finesse of the wines is the belemnite chalk subsoil which in most areas sits below a thin layer of surface soil providing excellent drainage as well as moisture retention for the vines. The only three grapes allowed in the production are Pinot Noir which provides structure and weight, Pinot Meunier for middle palate fruit and Chardonnay that gives the wine acidity and elegance. When the wines are young you can expect bright, fresh styles with citric acidity but as they begin to mature the richer notes of butter, nuts and toffee will surface.

NON VINTAGE

Champagne produced from a blend of different years to give a specific flavour profile, texture, weight and acidity.

Armand de Brignac Rosé	Reims	750.00
Armand de Brignac Blanc de Blanc	Reims	850.00

VINTAGE

Champagne produced from grapes grown in one particular year allowing the climate and conditions of the vintage to be expressed.

04 Moët et Chandon Grand Vintage	Epernay	160.00
04 Veuve Clicquot Ponsardin Vintage	Reims	215.00

PRESTIGE CUVÉE

As the name suggests these cuvées (blends) are the best that each of the Champagne houses has to offer. The wines are carefully selected and blended each vintage to express the conditions of that year as well as the differences of each vineyard.

03 Dom Perignon 'served w. assiette plate'	Epernay	320.00
99 Pol Roger 'Winston Churchill'	Epernay	499.00
NV Krug 'Grand Cuvee Brut'	Reims	480.00
96 Duval Leroy 'Femme De Champagne'	Vertus	550.00

SPARKLING WINE

Australia and New Zealand are starting to produce some very interesting and very good quality sparkling wine. Though not as highly regarded as their french counterparts these wines should be judged on their own merits and seen as a different style of product that has been made in a completely different part of the world.

NON VINTAGE

Sparkling wine produced from a blend of different years to give a specific flavour profile, texture, weight and acidity.

Domaine Chandon Brut	Yarra Valley VIC	55.00
Cloudy Bay 'Pelorus' Brut	Marlborough NZ	65.00
Louis Bouillot Cremant	Burgundy FRA	60.00

VINTAGE

Sparkling wine produced in the 'Methode Champenoise' (Traditional method of Champagne) of grapes grown in a particular year allowing the climate and conditions of the vintage to show.

08 Jansz Vintage Cuvée Rosé	Pipers River TAS	85.00
09 Clover Hill Blanc de Blanc	Pipers River TAS	90.00

SPARKLING RED

All of these wines are produced using the traditional method for Champagne but with red (black) grapes. The bubbles 'lift' the wine to give it a more aromatic and elegant nose than still wines produced of the same grapes.

NV Rymill 'The Beez Knees' Cabernet Merlot	Coonawarra SA	45.00
NV Primo Estate 'Joseph' Sparkling Shiraz	McLaren Vale SA	90.00
NV Rockford 'Black Shiraz' Disgorged	Barossa SA	165.00

WHITE WINE BY VARIETAL

RIESLING

One of the great aromatic whites, Riesling can be made in a myriad of different styles ranging from very dry to very sweet. The grape has very high levels of acid that gives the wines length and makes them well suited to matching with many different foods. The sweeter styles provide great contrast to fresh, spicy Asian dishes, while the drier, more zesty bottles tie in perfectly with shellfish. No doubt one of the most 'terroir expressive' grapes, Riesling is known for its ability to show the characteristics indicative to soil and region in which it is grown and for that reason can be like chalk and cheese depending on its origin.

11 Jim Barry 'Lavender Hill' Sweeter Style	Clare Valley SA	39.00
11 Mesh	Eden Valley SA	72.00
11 Palliser Estate	Martinborough NZ	52.00

07 Balthasar Röss Kabinett	Rheingau GERMANY	72.00
09 Salomon 'Undhof'	Krems-Stein AUSTRIA	62.00

PINOT GRIS + GRIGIO

One of the most puzzling definitions for many wine drinkers is the difference between Pinot Gris and Pinot Grigio. Though they are both produced from the same grape, the two styles are very different and unfortunately many producers who incorrectly label their wines are not helping people make the distinction. Both styles of the wine are usually dry with floral notes and light stone fruit as well as spice and honey but Pinot Gris is more rich and textural whereas Pinot Grigio is generally lighter bodied

10 Maximus Pinot Gris	Adelaide Hills SA	52.00
11 Joseph 'd Elena' Pinot Grigio	Clarendon SA	65.00
10 Kooyong 'Beurrot' Pinot Gris	Mornington Peninsula VIC	60.00
11 Cloudy Bay Pinot Gris	Marlborough NZ	74.00
09 Hugel 'Tradition' Pinot Gris	Alsace FRANCE	69.00
11 Tiefenbrunner Pinot Grigio	Alto Adige ITALY	56.00

VERDELHO

Creeping up in popularity this style of wine is perfectly suited to a hot summer's day with flavours of melon, stone fruit and citrus. Its profile is akin to a bowl of fresh fruit salad.

11 Bleasdale 'Potts Catch'	Langhorne Creek SA	37.00
12 Symphony Hill Reserve	Granite Belt QLD	48.00

SAUVIGNON BLANC

If wine grapes were in a popularity contest, Sauvignon Blanc would be the hands down favourite. Although it seems that many vignerons steer the grape in a direction that suits the market there are still a few out there who employ more a 'minimal intervention' method to their style that allows the fruit to express its regionality. Sauvignon can be made in many different styles with the most popular being those showing tropical fruit flavours of passion fruit, pineapple and banana while others have a 'greener' more herbal note with often green bean or asparagus.

12 Hill Smith Estate	Eden Valley SA	47.00
12 Dalrymple	Pipers River TAS	46.00
10 Taltarni 'Three Monks' Fumé Blanc	Pyrenees/Pipers River VIC/TAS	54.00

NEW ZEALAND

New Zealand is now without doubt the most recognised country when it comes to the production of Sauvignon Blanc. The Marlborough region is the most sought after offering wines with tropical fruit and often a 'funk' that adds character to the nose.

11 Flowers on the Vine	Marlborough	46.00
12 Nautilus Estate	Marlborough	56.00
12 Pioneer Block 'Partial Oak'	Marlborough	60.00
12 Greywacke 'Wild Ferment'	Marlborough	65.00
11 Cloudy Bay	Marlborough	70.00

FRANCE

Although Sauvignon Blanc originated in Bordeaux its best examples in France come from the Loire Valley which runs along the longest river in the country (also named the Loire). The wines are sometimes oak aged to give a more full and complex palate and are in general more rich and textured than those of New Zealand. Expect flavours of green bean and asparagus to compliment the fruit.

10 Henri Bourgeois Blanc 'La Baronnes'	Sancerre	85.00
--	----------	-------

SEMILLON

Although it is highly regarded in many white wine blends Semillon is often overlooked as a single grape varietal. It is particularly good with food and has high acidity with citrus and melon flavours.

10 Vasse Felix	Margaret River WA	45.00
09 Brokenwood 'ILR' Reserve	Hunter Valley NSW	90.00

VIOGNIER

Viognier is highly aromatic with good length and flavours of peaches and apricots.

08 Yalumba 'The Virgilius' Viognier	Eden Valley SA	80.00
11 Yalumba 'Organic' Viognier	Barossa SA	45.00

CHARDONNAY

The worlds most popular white wine grape Chardonnay is grown everywhere that wine is produced. In terms of production it is one of the most forgiving grapes and allows winemakers to offer a reasonable wine even in the most mediocre of vintages, climates and regions. Although in the past, Australian Chardonnay was being heavily influenced by the over-use of oak today winemakers are leaning towards a more balanced style of wine that has fruit flavours and acidity that are complimented by barrel age rather than dominated by it.

SOUTH AUSTRALIA

The cooler climate resulting from high altitudes in the Adelaide Hills and Eden Valley are perfect for the production of Chardonnay and most of the best examples of the style are from these two regions.

TASMANIA

Being the southernmost of all of our states Tasmania has obviously got a cooler climate and one that is suited beautifully to the making of fresh, dry white wines that have good acidity and often flavours of green apple, melon and pear.

09 Greywacke	Marlborough NZ	80.00

CHABLIS

Chablis is one of the most recognised wine regions/styles in all the world. It is typified by complex white wines that show remarkable balance between fruit, oak and acidity. The chalk soils add an unparalleled minerality to the back of the palate.

RED WINE BY VARIETAL

ROSÉ

The most common method of making Rosé is to leave the wine in contact with the skins after crushing the grapes, which allows the extraction of colour. Though some are sweet most of the best styles are dry and refreshing with flavour of strawberry and rose petal.

10 Maximus 'Rose' Grenache + Tempranillo	McLaren Vale SA	48.00
10 La Vieille Ferme Côtes du Ventoux	Rhône FRANCE	38.00
10 Henri Bourgeois Pinot Noir	Sancerre FRANCE	48.00
10 Los Vascos Cabernet (Owned by Lafite Rothschild)	Colchagua CHILE	50.00
09 Domaine OTT 'Clos Mireille'	Provence FRANCE	145.00

PINOT NOIR

The lightest (in colour and flavour) of all the black skinned grapes, Pinot Noir is produced in many different ways. When the wines are young they tend to be more fruit driven with flavours of cherry and red fruit but as they age, earthy, leathery characteristics for which the grape is prized become more apparent.

VICTORIA

Victoria is Australia's largest producer of Pinot Noir and offers many different styles. The Yarra Valley is probably the most recognised of all the regions showing styles with soft red fruit, cherry and spice as well as mushroom and earth.

09 Tarrawarra Estate	Yarra Valley VIC	44.00
12 Coldstream Hills	Yarra Valley VIC	65.00
09 Kooyong	Mornington Peninsula VIC	84.00

TASMANIA

Tasmanian Pinot Noir though often fruity tends more toward the earthy style with aromas of forest floor and mushroom as well as a slightly animal character sometimes described as 'barnyard' and leathery notes.

11 Pirie South	Upper Tamar TAS	56.00
10 Dalrymple	Pipers River TAS	65.00

NEW ZEALAND - NORTH ISLAND

New Zealand's north island produces some great Pinot but almost all of the best come from the Martinborough region.

10 Ata Rangi	Martinborough NZ	125.00
08 Dry River	Martinborough NZ	250.00

NEW ZEALAND - SOUTH ISLAND

There are some great Pinot Noir styles being produced in various regions throughout the south island of New Zealand but they are fast becoming overshadowed by those of Central Otago, the worlds most southerly wine growing region.

10 Greywacke	Marlborough NZ	90.00
09 Cloudy Bay	Marlborough NZ	95.00
08 Sam Neil 'Two Paddocks'	Central Otago NZ	120.00
10 Valli Estate	Central Otago NZ	125.00

RED BURGUNDY

Burgundy is one of France's most well known regions with Pinot Noir being the dominant grape. Many winemakers all over the world use Bourgogne Pinot Noir as a benchmark for their production of the grape.

09 Georges Duboeuf 'Beaujolais Villages' Gamay	Beaujolais FRANCE	39.00
09 Chanson 'Cuvée Signature' Pinot Noir	Beaune FRANCE	75.00

MERLOT

One of the world's most popular grapes, Merlot is used successfully in both varietal wines and in blends. It is one of the primary grapes used in Bordeaux and is the most planted grape in France but is also extremely popular in many of the world's other wine growing regions. Merlot is an early ripening grape and when produced in cooler climates tends to show light, red fruit flavours such as strawberry, raspberry and plum whereas in warmer climates it leans more toward dark berries, black cherry and chocolate. Because of its medium body, natural fruit sweetness, gentle tannin structure and soft, fleshy mouth feel it is the perfect grape to introduce the palate to red wine.

09 Smith & Hooper	Wrattonbully SA	45.00
08 Heggies	Eden Valley SA	60.00
09 Coldstream Hills	Yarra Valley VIC	80.00

RHÔNE VALLEY REDS

Home to many of the best châteaux in France the Rhône valley produces a huge amount of fine, elegant, dry red wine that is suited to food. The southern areas being warmer offer (in general) better reds with Grenache being the dominant varietal.

SHIRAZ + SYRAH

Although there is much debate as to the origin of the Syrah (Shiraz) grape there is no argument that it is one of the most popular red wine grapes being grown and produced in Australia today. It is a very versatile grape and can be grown in many different climates all of which result in an original finished product. In cooler areas the grape can have lifted, elegant notes of violets, mint, and eucalypt while in warmer climates rich red fruits and chocolate or liquorice are more evident. The wines are aged in oak more often than not and are well suited to bottle ageing developing softer and more balanced flavours as they progress. Although there is technically no difference between Shiraz and Syrah many cool climate producers (particularly in New Zealand) label their wines as Syrah to set them apart from the more full bodied styles.

VICTORIA

Victoria has many differing soils and regional nuances that contribute greatly to each bottle but most of them are cooler climate styles with white pepper, violets and mint as well as bright red fruit.

SOUTH AUSTRALIA

Home to the famous Barossa Valley, South Australia is the undisputed leader in Australia's Shiraz production. The wines are full bodied and opulent with rich, red fruit as well as liquorice, chocolate and cedar resulting from oak ageing. There are also some brilliant bottles coming from the McLaren Vale where the wines have a more steely, mineral finish.

CABERNET SAUVIGNON

Cabernet Sauvignon is one of the highly prized and sought after red wine grapes in the world. It is grown with great success in many of the worlds most recognised regions and although it is more than capable of producing wines of great depth, structure and complexity as a single varietal it is often blended with other grapes to result in some of the planet's most desirable reds.

In this country, it is best known from the Coonawarra region in South Australia as well as the Margaret River in Western Australia, but in France it is the backbone of many of the best wines from Bordeaux. The grape is also very well made in California and many wine drinkers consider these wines to be among the best in the world.

WESTERN AUSTRALIA

From the Margaret River region, typical aromas of capsicum, spice and pepper with often a leafy, stalky style can sometimes be attributed to whole bunch pressing but is often just the result of the fruit.

09 Vasse Felix	Margaret River	66.00
09 Cape Mentelle	Margaret River	120.00
09 Hayshed Hill 'Block 2'	Margaret River	100.00

SOUTH AUSTRALIA

In South Australia the Coonawarra is the most recognised region for Cabernet offering dry, earthy wines that are full of berry fruit with great structure and backbone. In the Barossa Valley the darker soils contribute to a richer fruit flavour often with aniseed and chocolate.

RED BLENDS + VARIETALS

Most wines whether white or red are blended with one thing in mind; balance. As with all things, flavour, acidity and texture should be in harmony with one another. If any one thing starts to dominate a wine then it can become one dimensional and lose its appeal very quickly. The wines are always labelled so that the highest percentage grape in the blend is listed first and then so on.

WESTERN AUSTRALIA

The Margaret River is known for a savoury style of herbaceous, leafy Cabernet Sauvignon which is softened by the roundness and sweet fruit of the Merlot grape.

RED BORDEAUX

Bordeaux is regarded by many as the best region in the world for the production of dry red wine. There are many laws in place to help regulate the wine industry which sometimes impedes winemakers choices but almost always guarantees wines of the highest quality. The main black grapes used in Bordeaux are Cabernet Sauvignon, Cabernet Franc, Merlot, Malbec and Petit Verdot though the wines are nearly never labelled with the varietals listed.

ITALIAN REDS BY REGION

A large amount of the wine produced and bottled in Italy is low quality table wine that is not fit for export but there are still some exceptional quality wines being made to a very high standard.

PIEDMONT

This well known region in Italy's northwest is best known for the Nebbiolo (Spanna) grape which is used to make both Barolo and Barbaresco. The wines are almost always very high in tannin and for that reason benefit greatly from further time in bottle although they are aged at least two years (four for riserva) prior to release.

DESSERT/SWEET WINE. BY REGION

Dessert Wines are made in many different ways but in essence all of them revolve around the idea of concentrating the flavours of the grape by 'removing' some of the water inside the grape. This can be done on or off the vine by depriving the bunches of fruit of water, the onset of Botrytis Cinerea or even by natural freezing as in Eiswein. Whatever the method the result is a rich, sweet, textured wine with fruit flavours dependant on the grape or grapes used and often honey, toffee or caramel.

MOOBAR BROADBEACH CLASSIC COCKTAIL LIST

DAIQUIRI *suggested variations: Classic/ Mixed Berry/ Vanilla + Basil/ Honey + Rosemary* 16

In 1898 whilst managing the Daiquiri copper-ore mines on the Eastern outskirts of Santiago de Cuba, Jennings Stockton Cox created the Daiquiri. Named for the town in which he worked, Cox mixed BACARDI Rum, which he received as part of his monthly salary, with fresh lime juice and sugar - and a legend was born. In the 1920s, in La Floridita Bar in Havana, Barman Constante Ribailagua originated other variations of this classic which were made from tropical fruits.

MOJITO *suggested variations: Classic/ Passionfruit/ Raspberry + Vanilla/ Mandarin + Jasmine* 16

Legend says that the Mojito originates from a drink called "The Draque" which was created around 1586 by one of Sir Francis Drake's Corsairs. This used Aguardiente (the crude forerunner of rum), sugar, local fresh lime and mint. In 1862, shortly after the time that Don Facundo Bacardi Massó created BACARDI Rum, the recipe for The Draque changed to rum, and the world had its first taste of the Mojito. The word Mojito is derived from the Spanish word 'Mojo', meaning little spell.

SOURS *suggested variations: Whiskey/ Amaretto/ Side Car + Clover Club* 16

A Sour is a traditional family of mixed drinks and is one of the oldest families of original cocktails described by Jerry Thomas in his 1862 book 'How to Mix Drinks'. The traditional structure of a sour generally comprises of 3 parts strong, 2 parts sour and 1 part sweet. Above are four very famous cocktails that form part of this famous drinks family. However, we must point out that there are many more cocktails that are included in this family of drinks. The most famous of which is the Margarita.
