Welcome to Depot 609, a place where we are dedicated to bringing back the old school values of good wholesome food, captivating coffee and a bit of straight up comfort.

Our coffee, the "Volcanic Bloom", was chosen for its smooth, endearing character and whilst not shy (it will certainly get you out of bed in the morning), its velvety finish gives you a big caffeinated hug that lets you know that the day will be all a bit better from having it.

Our menu was made to celebrate the old fashioned values of flavour, freshness and fulfilment, keeping the hunger pangs satisfied. We feel there is a bit of something for everybody and we hope to keep bringing you tasty treats and happy eats each time you visit.
