FRESH FISH DAILY

FISH SHACK LOVES FRESH FISH

FISH SHACK ONLY SERVES SUSTAINABLE FISH, DELIVERED TO US DAILY FROM SYDNEY FISH MARKETS.

We cook them in our original recipe batter which is light and crispy. We use quick frying methods and high quality oil to produce great fish and chips. So you can eat and enjoy our fish and chips as a nutritional part of a balanced diet.

We strive to achieve the finest flavours from our fish so our house red sauce is the perfect accompaniment. Your fish and chips will thank you.

BENEFITS

Fresh fish is an excellent source of protein and it also provides the body with carbohydrates, vitamin C, B6 and B12, iron, calcium, phosphorous, and omega 3. So relax, and enjoy. A good dinner is a fish dinner!

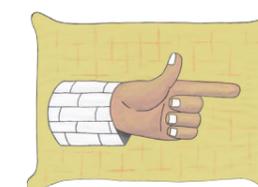

WE CARE ABOUT OUR SEAS

A staggering one third of all the fish caught globally is thrown overboard, our oceans are suffering from depleted stocks of fish. Here at Fish Shack, we work closely with our fish suppliers to find species

of wild and farmed fish that are not endangered, seasonal breeding or in short supply. We care about our seas and want to make sure they stay healthy for the future. We serve only the freshest sustainable fish.
