

CRANEFORD

Craneford Wines is a producer of premium wines; committed to hand-crafting pristine fruit of the highest quality, ensuring the consistent production of elegant well structured wines.

Founded in 1978 and located at Springton, east of the Barossa Range, Craneford Wines quickly established a reputation for producing premium quality wines.

When the opportunity arose to purchase the historic and unique Country Fire Station building in Truro, a tiny historic town on the northern edge of the Barossa Valley, the winery was quickly relocated.

The evolution of our signature wine, Fire Station Shiraz, was inspired by the old building and the discovery of a fantastic parcel of 2005 shiraz in a single vineyard. It seemed a shame to blend this magnificent discovery so we at Craneford decided to make an iconic wine from this parcel each vintage.

The 2005 Fire Station Shiraz is a well balanced wine with spice, rhubarb and blackberry on the nose and is a wonderful example of a Barossa Shiraz.

Our Cellar Door sales and tasting are now located in the old fire station building which gives a welcoming rustic atmosphere for our clients to relax and enjoy.

Our winemaker, Carol Riebke is committed to making wines that reflect the individual varietal character and personality of grapes from the region.

**Craneford Wines has an impressive range of wines to suit all tastes and budgets.
